

Batch Blending Tapered Vertical

Designed by AGI Fertilizer Systems For Space And Loading Efficiency

Yargus offers two vertical blenders that are designed for more efficient loading and unloading. Solid construction assures years of dependable service.

TAPERED AUGER VERTICAL BLEND SYSTEMS

Features an innovative flat-front design for lower dump height, a larger loader hopper for efficient loading, and a lower center of gravity for better stability.

- Available in 6-, 8-, 10-, 13-, 16- and 18-ton capacities

SINGLE-UNIT OPEN TOP BLEND SYSTEMS

Blends more quickly than most conventional and competitive blenders. The Yargus original blender is simple to operate and unloads rapidly in four different directions.

- 5- and 6-ton models feature a single auger
- 8- and 10- ton models feature a double auger
- 15-ton models offer larger hoppers with a double auger

Yargus is an AGI brand.

AGI is a leading manufacturer of grain, seed, feed, food and fertilizer handling, blending, storage and conditioning equipment. Our brands are amongst the most recognized in the industry. The AGI product catalog includes portable handling equipment (augers, belt conveyors, grain vacs), permanent handling systems (bucket elevators, enclosed belt conveyors, chain conveyors, structural) and storage systems (aeration, drying, bins/silos, monitoring) that service various sectors for on-farm and commercial operations.
